ABOUT US

Drain cleaning experts, plumbing pros and sewer repair technicians know that Western Drain Supply is the best place to get your gear.

Founded in 1999, Western Drain serves greater Anaheim, California and surrounding areas.

Conveniently located in east Anaheim near access to all the major highways, our showroom and exclusive brand rooms are stocked with everything you need for your plumbing and drain cleaning business.

We open at 7:00 am Monday through Friday so you can stop by before your first job of the day. We close at 4:00pm.

You can order on our website 24/7 and have your items shipped to you or ready for in-store pickup.

Our on-site repair center is equipped with state-of-the-art tools to get your gear up and running again in tip-top shape, and our Ridgid and Picote certified repair technicians are experienced professionals who are dedicated to doing a great job for you.

Depend on our knowledgeable staff to get you the equipment you need at a fair price. We're here to help you.

CONVENIENCE

Stop by our shop
on your way to the
jobsite.

SERVICE & SELECTION

We can help you
find everything
you need by brands
you trust.

SERVICE

Trust our repair
service to get your
equipment in working
order again, fast.

DRAIN MACHINES

DM175 Drain Cleaning Machine Manufactured by Duracable®

American-made for durability. Great for 3" to 10" lines with a 3/4 HP motor at 175 RPM, 23" polyethylene reel housing, and a 11/16" x 100' hollow core DuraFlex cable. The upright design of the DM175's welded steel unibody frame allows for service technicians to operate the machine in either a vertical or horizontal position. Removable leg supports come standard. A steel head bearing holds the reel in place and allows for a quick reel change with convenient swing bolts. The built-in tool box gives you easy access to tools. A winch hook at the top of the frame makes it easy to lift the machine.

DM175SP1

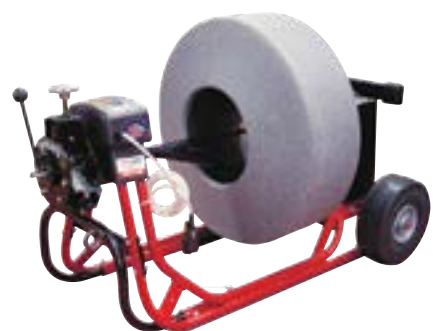

\$3,858.81

DM162 Drain Cleaning Machine Manufactured by Duracable®

If you're looking for a strong machine that is fit for various jobs in 2" to 6" lines, check out this big, tough, versatile upright. The DM162 can be configured just the way you want it for the way you work. We think it's the best that money can buy and will give you long years of service, no matter how tough the job: 1/2 HP motor at 265 RPM, 18" polyethylene reel and 5/8" x 80' hollow core cable. A steel head bearing holds the reel in place and swing bolts allow for quick reel changes. The winch hook at the top of the frame makes it easy to lift the machine.

DM162SP1

\$3,031.48

DM55 Drain Cleaning Machine Manufactured by Duracable®

Ideal for 2" to 10" lines, Duracable's popular DM55 features a 3/4 HP motor, power cable feed and return, and a continuous-weld frame constructed of an aluminum alloy that is as strong as steel. This sled design allows for service technicians to operate the machine in either a vertical or horizontal position. To help protect the machine operator, this machine features electrical wiring that runs through the frame. The winch hook on the frame makes it easy to lift the machine with a loading ramp or crane.

DM55 SP 26" Open Spoke Metal Reel, 11/16" X 110' Cable **\$3,384.00**

DM55 SPJ 26" Jumbo Open Spoke Metal Reel, 11/16" X 150' Cable **\$4,064.12**

DM55 SPO 26" Polyethylene Reel, 11/16" X 110' Cable **\$3,413.00**

DM55 SPP 26" Jumbo Polyethylene Reel, 11/16" X 150' Cable **\$4,160.74**

DM30 Drain Cleaning Machine Manufactured by Duracable®

Ideal for 2" to 6" lines in residential and light commercial jobs, the DM30 features a double tube frame for added stability when on the job. The electrical wiring of this machine runs through the top of the frame so normal wear will not expose the wiring. This machine can run several different sized reels which makes this machine very versatile with the flexibility of the cable diameter and length.

DM30 SP 21" Open Spoke Metal Reel, 5/8" X 100' Cable **\$3,174.00**

DM30 SPB 21" Polyethylene Reel, 5/8" X 100' Cable **\$3,174.00**

J-Maxx Drain Cleaning Machine Manufactured by Duracable®

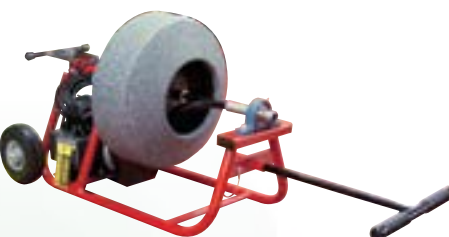

The J-Maxx packs a lot of power for a smaller machine. The 1/3 HP 200 RPM motor and standard safety air foot pedal make this machine effective, versatile and easy to use. It is suited to residential jobs, roof vents and floor drains. A continuously-welded steel frame allows the workings of the machine to be bolted directly to the frame for stability. The J-Maxx machine was designed to handle several reel sizes.

J-MAXX SP 16" Open Spoke Metal Reel, 3/8" X 75' Cable **\$1,255.00**

J-MAXX SPA 19" Open Spoke Metal Reel, 1/2" X 75' Cable **\$1,218.78**

J-MAXX SPB 16" Polyethylene Reel, 3/8" X 75' Cable **\$1,203.00**

J-MAXX SPC 19" Polyethylene Reel, 1/2" X 75' Cable **\$1,303.00**

DM150 Drain Cleaning Machine Manufactured by Duracable®

The DM150 is a powerhouse machine that performs best in 1¼" to 4" lines. The D-shaft motor gives this machine extra torque to help push through an obstruction. Operates in five positions (0 to 90 degrees) that can be secured in notched positions to keep the reel from slipping. The DM150 can be transported easily with a machine cart or an optional lifting handle can be added to the machine. The quick-change reel also allows an operator to run two different sized cables in just minutes.

DM150A	14" Oversize Polyethylene Reel, 1/2" X 75' Cable	\$1,715.03
DM150A1	14" Polyethylene Reel, 3/8" X 75' Cable	\$1,684.83
DM150A2	Two Polyethylene Reels, two Cables and Cart	\$2,518.18

DM138 Drain Cleaning Machine Manufactured by Duracable®

The DM138's continuously-welded frame holds up to the challenges of the job and a heavy-duty front bearing mount also adds to the stability of this machine. The machine is equipped with a self-aligning head bearing which ensures that the reel will stay in place when in operation. It also allows for a quick reel change on the job. The DM138 machine's guide tube protects surfaces from scratching while running cable. This small machine can also operate in an upright position to allow running cable easier. Non-marring rubber pads will protect flooring whether the machine is run in a horizontal or vertical position. Use the DM138 for 1¼" to 3" residential lines, sinks, shower and bathtub drains.

DM138A	14" Polyethylene Reel, 3/8" X 90' Cable	\$925.00
DM138A2	8" And 14" Polyethylene Reels, 3/8" X 90' and 1/4" X 37' Cables	\$1,095.00

DM125 Drain Cleaning Machine Manufactured by Duracable®

The DM125 is small but mighty. The heavy-duty casted self-aligning head bearing ensures that the reel will stay in place. The versatile DM125 can operate in the horizontal or the vertical position. Equipped with a GFCI, safety air foot pedal and through-the-frame wiring, the DM125 machine maintains the safety of the operator. A guide tube and guide tube bracket help run cable without scratching surfaces, and the non-marring pads eliminate marks and scuffs on the floor while you are on the job.

DM125A	8" Polyethylene Reel, 1/4" X 37' Cable	\$733.00

Model 68 Series Drain Machine Manufactured by Gorlitz®

Heavy duty drain cleaning machines without compromise. 1 HP reversible motor and 10:1 gearbox. Skid bars protect the frame and a rear bumper lets you position the machine on its back. Designed for one-man operation, the Gorlitz GO 68 HD's are perfect for cleaning roots, sludge, grease, sand and rags from 3" to 10" lines up to 500' long.

GORG068HDPE	11/16" x 150' Enclosed Poly Drum	\$3,240.00
GORG068HDDR	11/16" x 150' Open Metal Reel	\$3,207.90
GORT04	Loading Ramp for 68 Series	\$492.84

Model 62 Series Drain Machine Manufactured by Gorlitz®

Versatile mid-size drain cleaning machines popular with plumbers and general contractors. 1/3 HP motor and 10:1 gearbox. Ideal for big jobs in small spaces, the Gorlitz GO 62 HD's are suited for cleaning 1½" to 4" lines up to 200' long.

GORG062AHDPE	5/8" x 100' Enclosed Poly Drum	\$2,358.75
GORG062AHD	5/8" x 100' Open Metal Reel	\$2,331.00
GORG062HD	5/8" x 100' Three Open Metal Reels	\$2,897.10
GORT04A	Loading Ramp for 62 Series	\$492.84

Model 50 Series Drain Machine Manufactured by Gorlitz®

Junior sized sled style drain cleaning machines can accommodate the Gorlitz Power Cable Feeder and Puller and Electric Foot Switch. 1/3 HP dual capacitor reversible ball bearing motor. The Gorlitz GO 50 machines are suited for cleaning vents, light roots and small drain lines 2" to 3" lines up to 100' long.

GORG050PE	1/2" x 80' Enclosed Poly Drum	\$1,387.50
GORG050RR	1/2" x 80' Open Metal Reel	\$1,354.20
GORG050APE	3/8" x 90' Enclosed Poly Drum	\$1,365.30
GORG050ARR	3/8" x 90' Open Metal Reel	\$1,332.00

Model 380/250 Series Drain Machine Manufactured by Gorlitz®

Gorlitz Models 380/250 Series machines are built with a unique frame construction that ensures durability and strength. Versatile, with five cable and drum combinations. Free-spinning inner hubs on drums prevent cables from kinking. Driven by a high-torque dual capacitor ball bearing motor for clearing sink and drain lines from 1½" to 3" in diameter up to 90' long.

GORG0380	3/8" x 65' Enclosed Poly Drum	\$1,060.05
GORG0380A	3/8" x 90' Enclosed Poly Drum	\$1,082.25
GORG0380/250	3/8" x 90' and 1/4" x 50' Enclosed Poly Drum	\$1,215.45

Model 15 Series Drain Machine Manufactured by Gorlitz®

Model GO 15 Series are the smallest sink cleaning machines from Gorlitz: lightweight, smooth and quiet in operation, tough and durable in construction and recommended to efficiently clean any 1¼" to 2" kitchen or shower drain. The completely watertight enclosed polyethylene drum is equipped with a specially designed inner cone and distributor arm to reduce the possibility of cables escaping or kinking.

GORG015	1/4" x 35' Enclosed Poly Drum	\$750.36
GORG015A	1/4" x 50' Enclosed Poly Drum	\$760.35

3500 Series Gas Powered Jetter Manufactured by Gorlitz®

Versatile large gas powered water jetter for outdoor use. Sturdy frame, front lift handle, battery box, trigger gun and mounting rings, hose reel and 8" pneumatic tires. The mounted hose reel has the capacity to store over 300 feet of 3/8" diameter jetter hose and is fitted with a stainless steel swivel, hose guards and adjustable reel break. Quick disconnect fittings at the pump, reel, hose and trigger gun simplify all connections. Powered by a dependable electric and manual start Honda GX630 18 HP engine and three piston ceramic plunger pump generating 3500 psi of pressure at 5.5 GPM to clear the most difficult blockages. Hydro-pulse feature easily opens frozen pipes and blasts through tough stoppages clearing sludge, grease and residue.

GORG03500

\$8,250.00

1500 Series Electric Jetter Manufactured by Gorlitz®

Easy maintenance, light weight and simplicity of operation makes the 1500 jetter a favorite among professional drain cleaners and plumbers. Compact and sturdy, this jetter is easy to maneuver with an extendable transportation handle, front lift handle, tool box for storage of accessories and pneumatic tires. In addition, the frame is outfitted with convenient extension cord storage hooks while the electrical control box provides additional outlets. The divided hose reel accepts two different size hoses for simple storage of the trap hose and for permanent operation of the larger jetter hose. Quick disconnect hardware makes for easy break down and loading. Custom built dual capacitor 2 HP electric motor draws 19.8 amps at full load. The duplex ceramic plunger pump equipped with dual pulsation will generate over 1500 psi at 2.1 GPH to clear tough stoppages or open frozen pipes.

GORG01500

1/4" x 100'

\$3,100.00

GORG01500B

1/8" x 75'

\$2,150.00

Power Cable Feeder and Puller Manufactured by Gorlitz®

Gorlitz's heavy duty power cable feeders and pullers are recommended for all sewer and drain cleaning models. Impressive power, speed and construction. The drive pins, U-brackets, spring pressure pad and heavy duty knob assembly spindle and plate are heat treated for extended life. Most importantly, all aluminum housings have grease fittings to lubricate the pistons. Advance or retract left- or right-coiled cables from 3/8" to 3/4" in diameter at a rate from 0 to 32 feet per minute depending on machine revolution.

GORT01

JETTER HOSE

Jetter Hose Manufactured by Piranha® Hose

Western Drain Supply distributes several types of jetter hose including sewer and drain, Slither, Armor Belt and high burst. Piranha Hose is offered in a variety of diameters and lengths. Each hose is available with a choice of ends and includes a six-month warranty from the date of purchase.

SLITHER HOSE

The cover on the Slither hose is ultra slippery, which allows the hose to maneuver around and through difficult bends.

ARMOR BELT

When the application calls for extreme durability while maintaining flexibility, Armor Belt is ideal for demanding and harsh environments. It also improves hose life and resists cuts and abrasions.

HIGH BURST

High burst hose operates at 4,000 psi and features a thermoplastic inner tube that increases durability.

Prices are subject to change without notice.

Orange = 2,500 psi
Blue = 3,000 psi
Green = 4,000 psi
Black = 4,000 psi (high burst)
Red = 5,000 psi

Maxi Miller Manufactured by Picote®

For the toughest jobs, this is the machine you want. The Maxi Miller is a high-speed, high-torque powerhouse designed for cleaning, light or heavy descaling, and tough root removal in pipes ranging from 3" to 10" and cutting/reinstatements in 3" to 8" pipes. When combined with the Picote Maxi Coating Pump, it has the capability of installing epoxy coating in 3" to 12" pipes. It has a reach of 100' of 1/2" cable, which can be extended another 33' with an extension.

3560032012US

\$10,985.00

Super Midi Miller Manufactured by Picote®

Strong yet flexible, the Picote Super Midi Miller has a range of 65' that can reach another 33' with an extension. The Super Midi is suited to jobs involving heavy descaling, root or other blockage removal, or reinstatements in 3" to 6" pipes. It also pairs easily with the Picote Maxi Coating Pump to brush coat pipes 3" to 8". The Super Midi sits squarely between the Mini and Maxi Miller capabilities, offering the strength of a 1/2" shaft, a thinner shaft casing for flexibility, and a weight of only 150 lbs. It is fed by a standard wall outlet, making it easy to use on any job site.

3551031220US

\$8,550.00

Mini Miller Manufactured by Picote®

The high speed, high torque Mini Miller is adept at blockage removal and reinstatements even in tight 2" traps, up to 4" pipes. This multi-purpose machine can clean and prepare pipes, cut and grind CIPP liners, apply epoxy coatings in conjunction with the Mini Coating Pump (in 2" to 6" pipes) and more. It has a reach of 55' of 1/3" thick-cased cable, which can reach another 25' with an extension. The compact and lightweight Picote Mini Miller is easy to move, but hard to beat.

Mini Cleaner Cutting Machine Manufactured by Picote®

The Picote Mini Cleaner machine is ideal for cleaning in small diameter pipe with multiple bends and 2" p-traps. Snake through nearly any obstacle course of piping with this agile machine! Clean, cut and coat pipes 1/4" to 3" with this compact machine designed for safety and versatility. You'll find unblocking, cleaning and descaling small pipes easy with the Mini Cleaner. The Mini Cleaner's flexible-cased 1/3" cable reaches 50'. Cutting package included; cleaning package also available.

Pipe Coating Pumps Manufactured by Picote®

Coat unlined or lined pipes or connections from 1¼" to 8" with the Picote Mini Coating Pump and Mini Miller combination, or use the Maxi Miller Pump system to coat longer and larger diameter pipes (3" to 12") using wider profile brushes that provide a smoother and thicker coat of material. Coat anything from a small area to entire piping systems with the easy-to-use Smart Mixer and dual-color 100% solids epoxy resin cartridges for cast iron, PVC, concrete or clay pipes. Flexible shaft and brushes make it easy to navigate multiple bends even in very small pipes.

2220100002	Mini Coating Pump	\$7,450.00
2220200001	Maxi Coating Pump	\$10,374.00

Drying Heater Manufactured by Picote®

The Drying Heater will decrease time between coats with the Picote Brush Coating™ system. 110v heater includes 16' heater hose. Air outlet temperature is limited to 131°F. Automatic thermal cut-out in both motor and heating element. Maximum air velocity up to 100m/s and maximum air volume 2.20m³/min. Minimal noise: 78dBA.

1350000024US		\$2,250.00
---------------------	--	-------------------

Dual Coat Epoxy Kits Manufactured by Picote®

100% Solids Epoxy designed exclusively for the Picote Brush Coating™ System. Rehabilitate decayed and damaged concrete, PVC, fiberglass, clay, cast iron and ductile pipes. Extend the service life of a pipe, stop corrosion, create a new semi structural pipe, "patch" on top of CIPP liner or fortify connections. Apply to small areas or all pipes in multi-story buildings. The simple Dual Color method allows for clear visual verification during application. With multiple coats, the resin forms a semi-structural pipe inside the original pipe that is safe and environmentally friendly. The new pipe is wear-resistant with a corrosion resistant barrier. Due to high breaking stretch, the new pipe withstands shocks and bending. It is also elastic and antistatic. Kit contains six 12-lb 5-oz cartridges, three white and three gray, plus eight tips and three nuts.

2110001001		\$394.00
-------------------	--	-----------------

Fast Cure Epoxy Kits Manufactured by Picote®

A faster curing version of Picote Dual Color 100% Solids Epoxy resin. Ideal for efficient, experienced Picote Brush coating installers. Same high-quality epoxy as our standard epoxy, but with a FASTER curing time. A must-have for shorter runs. Used to rehabilitate decayed and damaged concrete, PVC, fiberglass, clay, cast iron and ductile pipelines. The Dual Color method allows for clear visual verification during application. Six cartridge kit with eight tips and three nuts. Designed exclusively for the Picote Brush Coating™ System. ASTM Certified.

2110001010	Dual Epoxy Kit (three white, three grey)	\$472.00
2110001011	White Epoxy Kit (six white)	\$472.00

We carry a complete line of professional pipe descaling, coating, lining and rehabilitation tools and equipment from leading manufacturers including Picote, Maxliner, Brawoliner, Sapro, APS and more. Don't see what you need in our catalog? Visit our showroom, call us, or shop online!

PIPE LINING

Max LinerGun™ Manufactured by MaxLiner®

The aluminum Max LinerGun is a compact inversion unit for lining 2" to 12" diameter pipes. Ideal for residential and industrial drains in horizontal or vertical applications. Methods include open-end for blind shots to the main and closed-end for pit-to-pit. The LinerGun rests on an adjustable stand and comes with 4", 6" and 8" adapter rings.

MAXLG001001

\$16,437.00

Max Liner Drum 700™ Manufactured by MaxLiner®

Aluminum inversion drum suitable for air, water, UV and steam installations. Designed to hold more capacity for those longer and larger liners. Equipped with larger wheels for easier transport across any terrain. At under 24" wide, it easily passes through the narrowest doorways. Can be used with 2" to 6" liner, and holds 135' of 4" liner.

MAX700

\$12,900.00

Max HotKick 2.0™ Manufactured by MaxLiner®

Mobile Hot Water Curing System with built-in recirculating pump. The unit is a powerful propane fueled system, complete with a 3" to 8" curing manifold, pressure relief Kunkle valve, two 25" long red and black recirculation hoses, pressure gauges, temperature gauges, safety pull strap and band clamps to secure the liner and calibration tube.

HK 2.0 HEATER

\$10,250.00

Max SteamKick™ Manufactured by MaxLiner®

Steam curing system includes steamer on rolling frame, steam hose, diffuser, mixing station, supply hose, manifold, clamps and pull strap.

MAXSKSCS

\$12,200.00

Max E-Roller™ Manufactured by MaxLiner®

This compact electric calibration roller can be mounted to a table or easily transported closer to the worksite by unlocking from the detachable baseplate. Ideal for a small crew wetting out longer liners up to 12" diameter. This 48lb, 110v powered unit operates with a foot pedal, allowing for a hands-free operation.

ER00450

\$6,295.00

Max Calibration Roller Manufactured by MaxLiner®

Portable manual unit evenly distributes mixed resin through liners 2" to 10". Includes shims (5-11mm) for appropriate gap setting per liner thickness for wet-out.

MCR0001

\$5,049.00

Maxliner Complete System Package Manufactured by MaxLiner®

Pipe Lining package with E-Roller.

MAXLINER SYSTEM ERLE

\$39,106.00

Prices are subject to change without notice.

Pipe Lining Inversion Drum Manufactured by APS®

Repair up to 6" pipes with this 700mm stainless steel inversion lining system. Air pressure inverts a resin-soaked liner into the existing pipe through a pressurized drum. The custom designed, fully stainless steel drum has a unique curing port which allows hot water to be circulated directly into the tank via a hot water boiler and pump. This expedites the curing process without losing pressure. The large access hatch allows for easy access during the preparation process. The drum can hold over 160' of 4" liner and 120' of 6" liner. Also includes a full set of inversion nozzles from 2" to 6" with other options available upon request.

APS-000-093

\$14,131.00

Ask us about other sizes - 350 and 500 mm also available.

Liner Impregnation Roller Manufactured by KrasoTech®

Compact impregnation unit designed for installation inside restoration vehicles. Synchronized drive of both calibration rollers, stepless speed regulation, gap adjustment, and forward or reverse drive rotation give the operator precision control. Made of high-quality aluminum and stainless steel, with coated rollers for easy cleaning.

PIPE LINING

MaxPox Resins and Hardeners Manufactured by MaxLiner®

MaxPox® epoxy resin systems are two-part, 100% solids, styrene-free epoxies offering superior mechanical properties, chemical resistance and adhesion to pipe materials, even under very humid and wet conditions. These resins have excellent wet-out capability, low-odor and no VOCs for quick and easy sewer repairs. A variety of resin and hardener formulations are available to afford installers either a short pot life for fast curing applications to an extended pot life for a more controlled installation. Available in a 40-lb bucket.

M18 200' Pipeline Inspection System Manufactured by Milwaukee®

Look into 3" to 10" drain lines up to 200' long with the industry's shortest 34mm 1080p HD self-leveling camera head. Powered by the M18 500GB Control Hub, this modular system lets you digitally zoom up to 4X and optimize light output inside pipes. Two batteries, charger, tablet mount and two camera head skids included.

MT2974-22

\$9,379.99

M18 120' Pipeline Inspection System Manufactured by Milwaukee

Easily inspect 2" to 6" drain lines with the industry's shortest 25mm 1080p HD self-leveling camera head, which allows you to pan and digitally zoom up to 4X. The M18 500GB Control Hub powers and swaps the reels, stores recordings and is part of the modular M18 system. Two batteries, charger, tablet mount and two camera head skids included.

MT2973-22

\$6,629.99

M18 Wireless Monitor Manufactured by Milwaukee

Whether you're outdoors on a roof or in a dimly lit basement, the Milwaukee M18 wireless monitor's 800 x 600 8-inch screen provides a clear, sharp image. Up to 4X zoom and easy video editing allow you to provide instant feedback to customers.

- Water resistant
- 200-foot range
- One-Key inventory technology

MT2971-20

\$1,499.99

M12 Pipeline Locator Manufactured by Milwaukee

This locator pinpoints sewer camera sondes and traces underground sewer lines. Upon startup, an arrow points in the direction of the sonde so there's no question which direction to start. Once in range, an icon appears on-screen confirming the exact location of the sonde. Dual 3D antennas eliminate false peaks and increase sensitivity and precision. A 4.3" color LCD display provides a clear image even in direct sunlight.

- IP 65 rated for durability in harsh, outdoor working environments.
- M12 REDLITHIUM batteries for all-day runtime on a single charge.
- ONE KEY tracking, security, and inventory management.

NaviTrack Scout Locator Manufactured by RIDGID®

RIDGID's solution to the most demanding remote transmitter (sonde) locator uses multi-directional locating technology to see the entire signal all of the time. Simply maximize the signal strength and you have found the target. No nulls or false peaks to complicate the locate. This locator verifies the position using a micro-mapping display to mark distinctive poles in front of and behind the target, ensuring accuracy. Depth is automatically calculated and displayed when over the target. Runs on four C batteries or rechargeable RIDGID Professional 18V battery with RIDGID SeekTech 18V adaptor.

R19238

\$1,860.00

SR-24 Line Locator with Bluetooth and GPS

Manufactured by RIDGID®

The SR-24 is a precision utility locating instrument with GPS and Bluetooth® technology for easy integration with external data capture devices. The SR-24's omni-directional antennas capture the complete signal field, making it easy to acquire the signal and trace its path. The receiver displays the utility's position and direction, providing an intuitive locating experience. For added confidence, audio and visual warnings notify the operator if the shape of the signal field is being distorted so that appropriate action can be taken to avoid mis-marking the utility's position.

R44473

\$3,650.00

SeekTech ST-305 Line Transmitter Manufactured by RIDGID®

RIDGID's 5 watt SeekTech ST-305 Line Transmitter lets you energize metallic lines for tracing.

- Can transmit two frequencies simultaneously.
- Audio feedback confirms a good circuit before beginning a trace.

R21898

\$1,160.00

Remote Transmitter Manufactured by RIDGID®

The remote transmitter can be attached to a drain cleaning cable or a water jet hose to locate the remote transmitter in a line. A flashing LED indicates that the sonde is transmitting.

SeeSnake Compact C40 Camera System with TruSense

Manufactured by RIDGID®

Digital recording monitoring with Wi-Fi for fast, efficient job setup. Tilt monitoring allows you to view the monitor at your desired angle or remove it for convenient job site placement. Always nail the image with self-leveling camera technology. The 1" TruSense camera head features a high dynamic range image sensor with two-way communication between the camera and SeeSnake. Battery and charger included.

- Quick-release dock for the included CS6x Versa.
- TiltSense inclinometer shows camera's angle in-pipe on CSx series monitors.
- Download the free HQx Live app to view and record inspection jobs on your phone or tablet.
- Use the high power FleXmitter 512 Hz sonde with a RIDGID receiver to locate the camera.
- 131' push cable navigates 2.5" minimum bend radius in 1.5" to 6" lines.

R63828

\$9,808.35

SeeSnake Compact M40 Camera System with TruSense

Manufactured by RIDGID®

The Compact M40 offers similar performance to the SeeSnake Mini in the popular Compact form factor, combining a small package and all-in-one monitor capability. TruSense™ self-leveling 1" camera head and high dynamic range (HDR) image sensor offers bright, clear in-pipe imaging in difficult lighting conditions.

- Quick-release docking system for easy setup with the SeeSnake CS6x Versa monitor.
- Sturdy metal frame provides a solid base that makes it easy to push and retrieve the cable.
- Powerful FleXmitter® sonde has long range and preserves the camera's ability to make turns.
- TiltSense displays the camera's angle in a pipe on a connected SeeSnake CSx series monitor.
- 131' push cable navigates 3" minimum bend radius in 1.5" to 8" diameter lines.

ProClean® Concentrated Drain Cleaner

ProClean Concentrated Drain Cleaner is a safe, economical and environmentally-friendly solution specifically designed to help keep drains free-flowing and prevent buildups from grease, fats and soaps. Nontoxic, beneficial bacteria absorb the grease and organic buildup in your pipes and convert them into harmless carbon dioxide and water through natural biological activity. In addition, a biofilm coats the inside of your drain pipes and continues to consume the organic wastes until the waste is gone. The formula also has a pleasant herbal fragrance to deodorize drains.

ProClean Concentrated Drain Cleaner contains no solvents, acids or caustic ingredients. It is approved for use by municipalities and water treatment facilities across the country. ProClean Concentrated Drain Cleaner will not harm drains – copper, PVC or iron – regardless of how often it is used. It is also safe to use around food processing areas.

PC1	Concentrated Drain Cleaner Quarts	12 per case /	\$81.25
PC2	Concentrated Drain Cleaner Gallons	4 per case /	\$65.00

PC1 and PC2 ship 48 cases per pallet.

ProClean® Drain Line & Grease Trap Treatment

ProClean Drain Line & Grease Trap Treatment uses a high concentrate of selectively adapted bacteria to degrade greases, fats, long-chain fatty acids and other organic waste. It is ideal for commercial locations such as restaurants, where a heavier concentration of waste products can quickly clog drains. Regular use helps prevent buildup in drain pipes and reduces the amount of grease trap pumping required by as much as 65 percent. ProClean Drain Line & Grease Trap Treatment builds a biofilm of microbes on the walls of the drain lines and grease traps. It works around the clock, consuming grease and organic waste before it has a chance to buildup. Use with the Time Flow Meter for auto-dispensing.

PC3	Drain Line & Grease Trap Treatment (5 gallon)	\$75.00
PC6	Drain Line & Grease Trap Treatment (30 gallon)	\$359.00

**PC3 ships 32 pails per pallet; PC6 ships 4 drums per pallet.*

ProClean® Sugar Residue Digestant

Drain lines in food service establishments all have a common problem. It is known as the "sugar-snake" – sugar from soft drinks and other products (candy, ice cream, juice, etc.) build up inside drain lines, especially inside beverage towers. ProClean Sugar Residue Digestant breaks down sugar buildup. It can be used anywhere high concentrations of sugar or carbohydrates are found, including food processing areas. Regular use of ProClean Sugar Residue Digestant eliminates backups and odor problems. Dispense using a Time Flow Meter to automatically release the product into the drain line.

PC5	Sugar Residue Digestant (2 gallon)	2 per case /	\$88.00
------------	------------------------------------	--------------	----------------

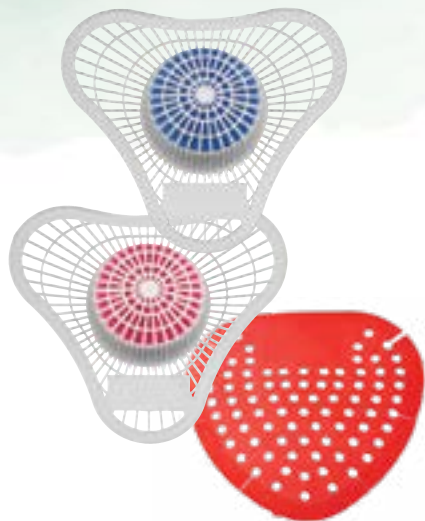

ProClean® Lift Station Grease Dissolver

The ProClean Lift Station Grease Dissolver provides an easy solution to organic waste build-up that can cause problems. The Lift Station Grease Dissolver is composed of safe and natural bacteria that works to reduce odor, sludge, fats, oils and grease buildup. The block allows for 24-hour continuous treatment and also greatly reduces the time it takes for dosage maintenance.

PCGTB5	Lift Station Grease Dissolver (5 lbs.)	4 per case /	\$178.00
BIOBLOCK10	Lift Station Grease Dissolver (10 lbs.)	2 per case /	\$290.00

ProClean® Urinal Screens

The Urinal Screen's trap prevents debris from entering the drain line in businesses and public facilities. ProClean's Urinal Screen deodorizes and also eliminates calcium buildup inside drain lines; the Fragrance Screen helps dissolve mineral deposits, hard water scale and uric salts. Each four-ounce block lasts for approximately 45-60 days, depending on usage. The Urinal Mat works to deodorize urinals with a cherry scent. The screen helps prevent debris from entering drain lines.

DC107	Apple Scented Urinal Screen with calcium buildup remover	12 per case	\$31.75
DC109	Cherry Fragrance Screen	12 per case	\$27.00
UMAT3	Urinal Mat	12 per case	\$12.90

Time Flow Meter

The Time Flow Meter uses a microprocessor that automatically injects the precise amount of ProClean Sugar Residue Digestant or ProClean Drain Line & Grease Trap Treatment into the drain to replenish the biofilm that was washed away by the flow of water through the system. The customizable unit is capable of 24 separate cycles per day, 7 days a week.

Each

\$217.00

RootX®

RootX is a foaming root control product that kills roots that are invading drain lines. RootX makes it easy to clean residential sewer lines, storm pipes and septic systems. The product is guaranteed to keep lines free of roots for 12 months. RootX is non-systemic so will not harm plants or trees and will not damage pipes or septic systems. *Each case of RootXK and RootX4K comes with one application funnel.*

ROOTXK	RootX (2 lb. container)	12 per case	\$252.00
ROOTX4K	RootX (4 lb. container)	12 per case	\$445.00
FA101	Application Funnel	Individually	\$3.10

Hercules Root Destroyer

Root Destroyer is used to prevent re-growth of roots in drain lines. After removing roots with a cable machine or jetter, Root Destroyer impedes the growth of roots in drain lines. Root Destroyer is a safe, effective way to remove the roots that cause blockage and restores water flow without affecting the growth of the plant. Root Destroyer is non-systemic, which means it will not affect the rest of the plant or tree when applied to the roots. A simple application of Root Destroyer just twice a year can prevent the growth of roots in drain lines.

PC4	Root Destroyer (2 lb. container)	6 per case	\$96.00

BioLine Drain Maintainer

Specially formulated for drain lines and septic systems. It is an environmentally-safe, easy-to-use liquid concentrate which penetrates and digests household grease, soaps and detergents. The biological ingredients will start working within thirty minutes to keep those odors away.

CUST5712	Half-Gallon	\$12.45
CUST5712(CASE)	Case of six Half-Gallon Bottles	\$71.00

BioLine Grease Trap Formula

Specially formulated for commercial applications, BioLine Grease Trap treatment is an environmentally-safe, easy-to-use concentrate which absorbs and digests fats, oils and grease. Use with a Flow Meter to ensure a consistent preventive maintenance program.

CUST5705	5-Gallon	\$63.55
CUST5715	15-Gallon	\$194.29
CUST5730	30-Gallon	\$360.00

ORDERING INFORMATION

How to Order:

Copy and re-use the handy order form at the back of this catalog to prepare your order, including part numbers and quantities. Have your customer account number ready. (Located on the top left side of your invoice).

■ Call 714-632-0447

Phones answered Monday through Friday, 7:00 a.m. – 4:00 p.m. Pacific Standard Time.

■ Order online at WesternDrain.com

■ Email your order to saleswd@westerndrain.com

■ Visit our retail store at 1140 North Kraemer Place Anaheim, California 92806

Open Monday through Friday, 7:00 a.m. – 4:00 p.m. Pacific Standard Time.

Methods of Payment -

1. In store, with cash, check or credit card.
2. Credit Cards: Visa, Mastercard, Discover or American Express.
3. Open account. A line of credit is determined by Western Drain Supply. You will be billed for all purchases.

Credit Policy - Net 30 days. All balances must be paid within 30 days of invoice date. Invoices are delivered via email.

Late Fees - All balances over 30 days past due will be subject to a 1½% monthly late charge (18% APR).

Sales Tax - We are registered to collect and remit sales tax in all states EXCEPT the following: AK, DE, DC, ME, MS, MT, NH, ND, OR, PR, VT, WV and WY (subject to change). If you are located in any of these states we recommend that you contact your tax advisor about any use tax that may be owed. Exempt customers can provide a sales tax exemption certificate to our customer service representatives. Online exempt orders must login to their account instead of using guest checkout.

Delivery Methods - Orders may be picked up in-store or shipped to you. Specify when ordering.

Delivery Time - Most orders are processed and shipped within three to five business days of receipt. Delivery times can vary depending on your location. Overnight or expedited shipments are available by request and incur additional charges.

Shipping Charges - Shipping costs will vary based on material classification, weight, distance and the carrier used. Western Drain Supply receives discounts from several freight carriers. These savings are passed on to you when shipping your order. We try to find the most economical way to ship your order within the time frame you give us. We consider:

Weight: Individual packages up to 150 lbs. are shipped United Parcel Service (UPS). Packages more than these weight limits should go by Motor Freight, where there is a single charge for packages up to a weight break level: typically 500 lbs., 1000 lbs., etc. The heavier the shipment, the lower the cost per 100 lbs.

Speed: UPS offers one-day and two-day air delivery anywhere in the U.S.; however, they charge a premium for one- and two-day service.

Damaged Shipments - Delivery driver's signature for the shipment from Western Drain Supply indicates all items listed on the Bill of Lading were received in good order and the carrier is responsible for delivering these items to you in the same good order. To guard against financial loss from damaged or lost shipments, you should take the following precautions:

1. When your shipment arrives, confirm all items on the Freight Bill agree with the Bill of Lading or invoice from Western Drain Supply.
2. Damaged goods or short shipment does not in and of itself justify a refusal to accept merchandise. In case of shortage or damage, have the driver note the shortage or damage on the Freight Bill and sign it. A signed Freight Bill without any notation of damage or loss releases the transportation company from liability. Any concealed damage must be reported to the transportation company within 15 days of delivery.
3. If a claim is necessary, the transportation company will inspect the damage or trace the loss, and will provide you with a claim form. The copy of the freight bill – with the shortage or damage noted on it and signed by the delivering carrier's representative – is the best possible support for your claim. Although our legal liability for your shipment ceases when the transportation company signs for it at our dock, we are always willing to help you in any way possible in tracing lost shipments or assisting with claims when necessary.

WARRANTIES

Incorrectly Shipped or Defective Goods - If your shipment was wrong or defective and needs to be returned to Western Drain Supply, contact us immediately for a Returned Goods Authorization number (RGA). This number must be identified on the outside of the package. Items returned without an RGA on the outside of the package will be returned to sender. Items must be returned to Western Drain Supply within 30 days of the invoice date. Provide the serial number and model number of the item, if applicable, and the reason for the return. Please provide a copy of your invoice in the shipment. Returned cable must include the inventory tag and a minimum of seven feet of cable.

Returned items received after 60 days will be charged a 20% restocking fee. Improperly packaged items will be refused and returned to you and credit will be denied. Items packaged in the original carton must include the carton in reusable condition. Western Drain Supply will credit reasonable shipping costs for items deemed defective by the manufacturer within the warranty period. Include a copy of the receipt from the shipping company for possible credit of freight. Unnecessary freight shipments will not be refunded. No C.O.D. returns accepted. Goods for which credit is denied will be scrapped unless otherwise noted.

Non-Returnable Goods - The following items may not be returned: goods more than 90 days old; special orders; discontinued items; goods that are unacceptable for resale; goods returned without proper documentation or without an RGA number; machines without a serial number; opened safety products; goods not in the original carton or case; and partial cases of goods.

Repairs - Western Drain Supply is an authorized repair center for Ridgid and Picote. We service most brands. For inspection and/or repairs, contact your account manager for an RGA number. Package the machine properly and identify the outside of the package with the RGA number. You are responsible for the freight. Western Drain Supply will inspect your machine for \$225. Repairs are billed at \$150 per hour. We will contact you to explain what repairs are needed and the cost. If you decide to have Western Drain Supply repair your machine, the inspection fee will be credited.

Warranties:

Product warranties are at the manufacturer's discretion and are not offered by Western Drain Supply. Return shipping on warranty items is at the customer's expense unless otherwise arranged with the manufacturer.

Pricing:

All products and prices are subject to change without notice. We make every effort to get you the best price on items from our vendors, but we cannot predict vendor price changes or timing. Please call us for current pricing on items we carry.
